

“ONE OF OUR MOST COMMON OPTIONS”

Our Homeowners Program

Whether or not you've been turned down for a mortgage by anyone else in the past, in many cases we're able to access a small amount of your equity to settle all of your Debt.

Why, because we calculate your equity much differently than anyone else and in a manner acceptable to the people we use for accessing that equity.

This avoids filing for Bankruptcy and is a very effective method for eliminating your Debt.

Settling your Debt in this fashion allows you to start rebuilding your credit in as little as 60 days and prevents any of your creditors from taking any further action.
